Click CalculateShould equal
\$10,000

Please list any partners you will work with during this grant cycle. (Please note if they are new collaborators and/or new grants/projects).

Rural Health Network of South Central New York [recurring] will assist with funded activities.

NYSARH collaborates with MANY additional organizations for our educational work. Of particular note is our partnership for a monthly webinar series with the New England Rural Health Association. In addition, NYSARH is part of the Public Health Partnership Conference each April with the NYS Public Health Association, the NYS Association of County Health Officers and the NYS Conference of Environmental Health Directors.

NYSARH collaborates with several statewide associations, most particularly the Community Health Care Association of NYS [FQHC], Healthcare Association of NYS [hospitals] and the Mental Health Association of NYS [behavioral health].

Provide any relevant, additional information including what direct outcomes you will be looking for/measuring/expect as a result of this funding.

NYSARH developed a Strategic Plan in 2020 to guide our work for 2021-23. The investments of this TA grant will assist NYSARH with the 'capacity building' goal in the Strategic Plan which, in turn, will help NYSARH achieve several additional objectives.
